

HCBS NEW NON-RESIDENTIAL PROVIDER SURVEY

This survey is intended to provide for provisional approval to provide nonresidential HCBS services.

The purpose of the provisional approval survey is to ensure that the settings in which new providers wish to provide services to HCBS participants are not institutional or isolating in nature. Provisional approval allows PIHPs to contract with new providers who do not have a current HCBS participant receiving services in their setting. Provisional approval is required before the provision of services to an HCBS participant.

A new provider is one who does not have a contractual agreement to provide services to the PIHP region prior to October 1, 2017.

Providers and Individuals will receive the HCBS Survey (comprehensive survey) *within 90 days* of an individual's IPOS. The provider *must* complete this survey in order to maintain the ability to provide HCBS services. Failure to complete the provisional approval process or the ongoing approval process *will* result in the suspension of the provider's ability to provide HCBS services.

PIHPs must ensure all new providers, as defined in the Provider Requirements document have completed this initial survey. The individual provider survey must be available upon request by MDHHS. Providers who do not meet the initial standards outlined *are not* eligible to provide HCBS services to Medicaid recipients. The PIHP may reassess the provider if the PIHP determines changes have been made that result in the provider becoming compliant.

Expected respondent: The provider who has direct knowledge of the settings day-to-day supports and/or the operational and administrative activities and policies of the provider agency.
